Take one or the other offer AT ONCE and remit in postal notes, orders, or New York Exchange to
TOWN TOPICS, 21 West 23rd St. New York.

THE DALY BANQUET.

Regina's Greeting to the New Minister.

It was a happy thought on the part of our citizens that induced them to welcome the new Minister of the Interior to our town with a banquet.

The proceedings last night and the company that assembled in the hospitable dining room of the Palmer House, were calculated to impress a visitor with the intelligence and prosperity of Regina. We know . . . the Minister was so impressed.

The company to the number of about sixty-five sat down shortly after nine o'clock to a sumptuous spread served in Mrs. Doig's best style.

Mr. Davin, Q. C., M. P., presided, having on his right, the guest of the evening, the Hon. T. Mayne Daly, Messrs. Hayter Reid, J. H. Ross, R. B. Gordon, and D. L. Scott, Q. C.; on his left His Worship the Mayor, Sheriff Benson, and Messrs. J. A. Paldon, T. C. Johnstone, and H. LeJeune. Messrs Dan Mowat, M. L. A., and John A. Kerr, occupied the vice chairs.

Mr Davin, in proposing the health of the guest of the evening, said it had given him great pleasure to be present at the most magnificent banquet given to the Minister at Brandon, but great as the pleasure was the other night he was still more pleased to be present on this occasion the purpose of which was to express confidence in our new Minister and to show him that he will have popular support in the position that he now occupies and that we have a personal regard for him.

The Hon. Mr. Daly, on rising to respond, was greeted with cheers. He was afraid his friend had been too flattering; there were hints as to his capabilities and he feared he might not altogether fulfil what was apparently expected of him. Mr. Daly referred to his early experiences in the country and said he had lived like other pioneers on bacon and hard tack. In his opinion he thought the Government had done a wise thing in selecting a North-West man. The Government had done a good deal for the North-West and what has been done was mainly through the exertions of the four North West and five Manitoba members, who always had worked together. He was pleased with the way his appointment had been received by the people of the country, and believed he had the unanimous support of every representative from Lake Superior to Nanaimo. (Applause.) Mr. Daly spoke of the Brandon banquet and of the pleasure he had had in meeting the Regina contingent there. He did not think a more charming selection could have been made. (Laughter.) Speaking of immigration, Mr. Daly warned his audience not to expect too much at once. He understood well that it was expected of the Government to do all they could to further immigration. This is still within the scope of his office and he would do his best. In concluding he said he would try to do his duty not only as a Manitoban, but as a Canadian and with Canadian sentiments. (Loud applause.)

FOR YOUNG OR OLD.

Children and adults are equally benefitted by the use of Dr. Wood's Norway Pine Syrup, the new and successful cough remedy. It stops coughs in one night and may be relied on as an effectual remedy for colds, asthma, bronchitis and similar troubles. Price 25 and 50c. at druggists.

WASHINGTON LETTER.

(From our Regular Correspondent.)

Washington, D.C., Nov. 8, 1892.

Noisy rain wooers disgusted the Capital last week. They selected night for their exploding business and a night when clouds hung low and heavy—a huge sounding board over the city. The entire population was wakened, the nervous alarmed, sick disturbed and the doctors angered. The weather bureau had been daily promising rain, reporting that rain conditions prevailed from Texas to Nova Scotia. The exploders claim that they shook down a little water, but most people are skeptical.

The cloud compelling newspaper-dubbed general has departed to the arid west for further cannonading. The very absurd statement that rains may have been caused prior to the use of gun powder in battles by the acclamations that rent the air and by the perspiration and blood of the combatants which ascended as vapors to form the nucleus of rain clouds indicates the character of this rain making science. The wind, vapors and rain storms are as little subject to man's pop guns as Fundy's tide or the Gulf Stream.

Tariff education is slow. One would think that the smart Yankee nation could have mastered the science long ago. The subject was discussed by the Revolutionary fathers and has been hotly debated ever since. Here is a specimen of a campaign of education in 1844 taken from the Black River Journal, a paper then published at Watertown, N. Y. where Gov. Flower has a residence. First comes quotations from candidate Polk. Here is one: "The wool growers consider the duty upon foreign wool as important to their prosperity. This opinion is founded upon error. My opinion is that wool should be duty free." With these anti-tariff utterances of Mr. Polk is associated the following: "$1,000 REWARD."

"The leaders of the Polk party in this state, in New Jersey, Pennsylvania, and wherever else the people desire protection to American labor, are asserting with unparalleled audacity that Polk is in favor of a Protective Tariff.

One thousand dollars reward will be given to any Loco Foco who will prove the extracts quoted to be untrue, [i. e. unauthentic.] Then comes the following: "Hear him. If any one doubts the love of Locofocoism for a Tariff for the Protection of American Labor let him hear the travelling Loco Foco orator who declared at La Fayetteville the other day 'A Protected Tariff is a Damnable Heresy.'" Next follows an article headed "The Janus Faced Party.'" 'Tammany Hall Courting the Natives," in which that ancient organization is accused of hypocritically courting the native American vote.

The army in elections. Notwithstanding the threatened conflict at the polls of the state and national officials in New York, Alabama and elsewhere there was no general expectation of any widely serious collision. But among those who dreaded the possibilities there was a good deal of satisfaction that so experienced a general as Schofield would have full and direct authority as Acting Secretary of War and Lieut. General of the army to preserve the peace. Secretary Elkins, his assistant General Grant, and Schofield's subordinate. General Howard being absent from their posts, entire and direct authority rested upon the democratic veteran who in reconstruction days had such abundant experience.

CAPITAL.

GIVES GOOD APPETITE.

GENTLEMEN,—I think your valuable medicine cannot be equalled, because of the benefit I derived of it. After suffering from headache and loss of appetite for nearly three years I tried B. B. B. with great success. It gave me relief at once, and now I enjoy good health.
MRS. MATTHEW SPROUL, Dungannon, Ont.

YORKTON, Nov. 14.—Saturday's by-election for Wallace for the North West Assembly resulted in the election of Insinger by a large majority over McNutt. Returns are all in except from Pelly, and give Insinger a majority of 170. Haultain will be banquetted to-night at Saltcoats.

SALTCOATS, Nov. 14, 2 p.m.—Mr. Insinger is elected by a probable majority of 145.

GREAT BIBLE COMPETITION.

Thousands of Dollars in Rewards for Bible Readers.

All communications, letters, business, etc. to be sent to

J. D. MAVEETY, Proprietor.

PRINCE ALBERT, NOV. 16, 1892

INSINGER ELECTED.

The contest in the district of Wolseley to fill the vacancy in the North West Legislative Assembly, caused by the death of the late Mr. Haultain, has been decided by the election of Mr. Insinger, a supporter of Mr. Haultain, by a large majority. This will break the deadlock, giving Mr. Haultain a majority of two. Mr. Insinger is a German and a successful ranchman near Yorkton. It is to be hoped that the Lieutenant-Governor will now call upon the Assembly together at the earliest possible date, in order that the business of the last session may be concluded. Mr. Cayley and his colleagues have introduced some new features in the administration of North West affairs that cannot but commend themselves to the people of the Territories, such as the promotion of immigration and the proper enforcement of the liquor license law. Should Mr. Cayley have to retire from the leadership of the Executive, it is to be hoped that his successor in office may continue the progressive work inaugurated by Mr. Cayley and his colleagues.

THE DEMOCRATS VICTORIOUS.

The great presidential election in the American republic has been decided, and the Democrats have gained a signal victory over the high protective policy of the Republicans. If this election means anything, it means greater prosperity to the American republic and adjustment of trade relations between that country and Canada. The republican party, that has been in power for the past four years, has framed a very high protective tariff, such as was inaugurated by the McKinley Bill, while the Democratic party advocated a lower tariff, or simply a revenue tariff. These were the principal planks in the the policies of the opposing parties in the presidential contest. The people have decided by an overwhelming majority in favor of the latter; as long as the American people maintain a high protective tariff, just as long the Government of Canada is justified in putting on a similar high tariff to protect the interests of the Canadian people. There is every to believe that under the Democrats the American Government will make a great reform in their tariff, which will simply be a revenue tariff, and there is no doubt this will be followed by a lessening of the restrictions on the Canadian side of the line. What this country wants is a treaty somewhat similar to the Reciprocity Treaty of 1852, during which time both Canada and the United States greatly prospered. Trade relations of a reciprocal character, conducive to the interests of both countries, will strengthen the bond of union that should exist between Canada and the United States, two great branches of the same family though under different systems of Government.

AN APOLOGY.

The Bishop of Saskatchewan has evidently missed his vocation, he should have been the editor of a newspaper judging from the remarks he made on Sunday night.

The Editor of THE SASKATCHEWAN TIMES feels keenly the rebuke given him by the Bishop, but consoles himself with the reflection that censure from such a source is preferable to praise from any other.

It is with fear and trembling that we dare approach one so high and cultured the friend of archbishops and metripolitans, one whose elevation to the Episcopate was hailed with jubilation from ocean to ocean and whose fame has been wafted from pole to pole, but in justice to ourselves we wish to explain our position and apologise to the Bishop.

We were under the impression that the welfare of the Church of England was a matter of public interest and that everything affecting that welfare was a fair matter of comment; we were also of the opinion that newspapers usually published letters handed to them, provided the writer were known, were responsible and had written nothing unfit for general reading.

We thought that the Bishop of Saskatchewan would have understood these things, being, presumably, possessed of common sense, but we were evidently mistaken and must apologise for the mistake.

We also thought that, knowing there to have been disorders here in the Church, the Bishop, on his arrival, would have temperately discussed the matter with his flock at a meeting in fact, would have acted in a courteous, manner. We were again mistaken and again must apologise to the Bishop for our false estimate of his character.

NICKEL DEVELOPEMENT

Evidences of the great future in store for Canadian nickel are increasing. Large smelting works have been established at Clydach and Pabeng, and the nickel ore supplied them from Canadian mines has so far been unable to meet the demand. Meantime, European countries interested in investigating the matter, and England has just been testing an officer plate in Portsmouth harbor, made by the Harvey process. A cough statistory telegram has just been received by the company in Newark, which indicates that the test was eminently successful.

THE MACHER VERDICT.

The verdict of the jury acquitting Messrs. Machen and Pooley of the charge of defrauding the province of Quebec, though it certainly does not accord with the views generally held as to their nefarious transactions, was not unexpected. It was quite evident from the first that the issue of the trial would turn not so much upon the question of legal guilt, as upon the feelings of the jurors, and every effort of the defence throughout the proceedings seemed to play upon those feelings, and, as the result shows, successfully.

THE COMING SESSION OF CONGRESS.

The "short" sessions of the Fifty-Second Congress promises to be lively, interesting and brief. It will convene on December 2 and sit until the 4th of March, when President Cleveland will be duly inaugurated. The curious illogical theory, and the more or less evil practice shown in this one fact. Here is a new President elected, a partial new House of Representatives and a Senate chosen, and yet for months the old machinery is in motion, the old full dress predominates, the superseded members and Executive legislate, while those chosen by the people can only look on, and perhaps, are tyrannized over by the party at the polls scoring victory after victory in Congressional halls. This is not likely to happen now, because the lower House is Democratic, but is often easily possible case.

Students are much the same all the world over, and it is not remarkable to read in the Scotch papers that they have taken to the women who are now admitted to the classes in the faculty of Arts in Edinburgh University with familiar jocularity. This may drive the lords to a broader fusion of the women, in view of the fact that the clergy and others who fervently opposed the movement in Scotland were more amused than otherwise at the incidents of the opening of the winter session at Edinburgh. It is admitted that the majority of the "girl graduates" in Edinburgh were considerably beyond the girl age, but the students were as rapturous in the "O, My Darling" chorus as if they were sweet sixteen.

"Whose country is this anyhow?" asks Governor McKinley, of Ohio. Well; we are not sure just now whether to say it belongs to the negroes, the trusts and combines, the millionaires, the railways, the monopolists, Tammany Hall or the foreign vote.

The first railway train has lately entered Jerusalem. With this evidence of advancing western civilization, there is also progressing a great and unusual influx of Jews. It may not be long ere Benjamin Disraeli's aspiration will be fulfilled, and Palestine become once more the centre and home, as it has been the cradle, of that extraordinary people.

It is hard for President Harrison, who is unquestionably an honest, patriotic and honorable man, to have lost both his much respected wife and the Presidency of the United States within a few days.

King Grover I. will assume control on March 4 and for four years thereafter any dog that barks at him is liable to have its neck wrung. No Parliament can control him and no popular movement can dethrone him. He is supreme. We are too democratic in this country to put up with such dictatorship.

The increase of $1,104,000 in our exports of lumber during three months ending September 30, indicates a revival in that important industry. Brisk shipments reported from the mills on the Chaudiere are therefore not surprising.

Protection means that goods used in Canada are to be made in Canada. Free trade means they are to be made in the United States or Europe. The first means wages earned here, paid here and spent here. Goods imported mean wages earned, paid and spent in United States or in Europe.

CORRESPONDENCE.

It must be distinctly understood that we do not hold ourselves responsible for opinions expressed by correspondents.

ANOTHER OPINON.

To the Editor of The Times.

SIR,—In your issue of the 2nd inst. you were good enough to comment on a letter of mine having reference to the late Lorne Agricultural Exhibition. I repeat these remarks and say that having considerable travelling through the Dominion of Canada I know no spot within that broad demesne where so far as soil and climate are concerned and for mixed farming a better reward for intelligence and industry may be expected than in the Saskatchewan country but you will remember that I said there was "other matters" not of nature making that required looking up. Foremost among these is the management of the school system, a system which if properly worked goes so far in the building up of a new country found in the near future to become a great nation like this.

Strange enough in your issue of the 2nd inst. you comment strongly on the fact of the recent School Board meeting at Regina being held with "closed doors," I go further and from investigation and personal observations I say that within those closed doors there was trickery, knavery, lying, debauchery and a suborning of public funds for private interests deliberately encouraged. And I charge everybody connected with this administration from the Bishop to the "Hessian trustees," as you call them, save, and even including the influence of our local legislature of being parties to such transactions. I charge any of those included to [illegible] to justify their extraordinary [illegible] the columns of your paper [illegible] and the will have a [illegible] Those gentlemen had their marriage certificates [illegible] his compliments and regret at such unseemly transaction, but that is poor satisfaction to those who come thousands of miles in search of new homes and have children of school age, whom they wish to have brought up in the way they should go. Equally true they are isolated cases like Duck Lake for instance, where the moral integrity of the teacher could not be influenced and where the majority of the school Board are above gibbing and men of common sense, but the risk of having teachers and overseers, whose best recommendation would be their ability to debauch and ruin in debt so great that except the inhabitants of a ratcheavan can see their way to raise the moral standard of the whole machinery the writer for one will feel constrained to use whatever influence he may possess to prevent by their absence the risk of having children brought up under such a bad example.

RICHARD MITCHELL.

DUCK LAKE EXHIBITION.

An exhibition of agricultural produce, grain, roots and vegetables was held on the 11th inst. at Duck Lake under the management of the Emigration Committee for the purpose of selecting samples to be sent to the World's Fair. Owing to the impassible state of both branches of the river the supply was rather limited, being confined to farmers within the two branches of the Saskatchewan, but even to this limited area were some samples worthy of special mention, amongst which was Red Fefe, Ladoga wheat and white Race Horse oats, which each carried off first prize. The latter very superior indeed and exhibited by Captain and H. Craig of Wingard, who also showed a very nice sample of potatoes, "Early Ohio." The roots in general were of a fairly good description but scarcely matured, amongst which was a very nice sample of Swedes purple top Swede exhibited by Mr. Henry Kelly of Duck Lake, and which carried off first prize. The second prize in this class falling to an Indian on the Beardy Reserve for Russian Green Top, a hardy well matured turnip of good size and shape evidently suited to the soil and climate, and which reflects credit on the instructions and management which has been carried out on this Reserve. There was also mangel exhibited by an Indian as the "Globe" variety but not being true to name no prize could be awarded, but as a root deep set and fine producer was nearly equal to the best in view. The judges on roots and vegetables were Messrs. McKenzie, and W. R. Unwin. The judges Messrs. Richard Mitchell and Henry Kelly of Duck Lake. The details being carried out by Dr. Stewart, Secretary to the Emigration Committee, in an energetic and business-like manner.

CLEVELAND ELECTED.

New York, Nov. 8.—Cleveland was elected president to day by one of the largest majorities ever received by a candidate for that office. He carried New York by 25,000 to 30,000 majority and Illinois by five to ten thousand. Excepting West Virginia, Cleveland carries every one of the doubtful northern states, namely, New Jersey, Connecticut and Indiana, Harrison's own state, besides New York.

Of the 444 votes of the electoral college Cleveland has 247 now with a prospect of more, and Harrison 134. The Democrats will undoubtedly have the house of representatives, though by a greatly reduced majority. The election passed off with none of the serious disturbances which had been anticipated,

DR. PRICE'S BAKING POWDER.

Supplying the Army, Navy and Indian Department.

Chicago Inter-Ocean.

The purchasing agents of the United States Government have ordered nearly one hundred thousand pounds of Dr. Price's Baking Powder in the first five months of this year, 1892.

The Government exercises great care in selecting its supplies of all kinds, rejecting everything that is not of the best, and the very fact that it has adopted Dr Price's Baking Powder is proof that it has found it the best of all baking powders. Dr. Price's is peculiarly adapted for export, as neither long sea voyages nor climate changes affect it, this brand keeping fresh and sweet for years while other baking powders deteriorate rapidly.

It is guaranteed to the government to be pure cream of tartar powder free from ammonia, alum, or other harmful substance, and is also the only baking powder prepared by a physician of high standing.

GRENFELL, Nov 14.—The Conservative convention for East Assiniboia met here Saturday. Six names were before the convention, Messrs. Bell, McDonald, Hawkes, Thorburn, Patterson and Richardson. The contest narrowed down to between Bell and McDonald, resulting in favor of the latter.

VARIED AND INTERESTING.

THE Society of Friends has contributed more than $100,000 to the Russian sufferers.

THE curious custom of placing dolls on graves prevails among lot-holders in Baltimore cemetery.

THE natural gas found Pittsburgh, Pa., is gradually lessening, and the black smoke from the use of coal is becoming greater in the city.

HUNDREDS of ducks have recently been caught in the rapids at Niagara Falls and carried over. They were either killed or so shocked that hunters in boats easily bagged them.

IT is probable that another Bowdoin expedition will go to Labrador next summer, and that the explorers will go in a steamer and penetrate much further north than on the first trip.

A SYSTEM of heliograph signals which will cover a circle over 150 miles in diameter is to be put in at Pierre, S. D., by the weather bureau. The system will be available for transmitting any kind of news besides the weather reports.

A SIGNAL of distress, as on a ship at sea, was seen floating from the house of the Knight family in Northport, Me. Some passers-by, curious to know the cause of the signal, hastened to the house, and there found all the members of the family helpless from the grip.

CHINESE MAFIAS.

An Organization of Assassins That the Law Is Powerless to Suppress.

There is quite a striking analogy between the Italian Mafia, as it is commonly understood, and the Chinese Tong, or organization of cutthroats, murderers and highbinders in this city, says the San Francisco Chronicle. The chief point of difference is that the subdivisions of the Mafia are not at constant war with each other, while the Tongs have deadly feuds continually on foot, and generally select their victims from among their rivals.

The question of these organizations of assassins in the heart of a civilized community like ours has grown to be a serious one. We know, in a general way that each Tong is bound together by oaths which its members dare not break, that its purpose is crime of the deepest dye; that it shelters its members by every artifice which Chinese cunning can devise, and that it sets at defiance the laws of the land; but here our knowledge on the subject ends. We do not know the motives which underlie the frequent murders, nor do we seem to know how to break up these Tongs or put an end to their career of crime.

The suggestion has been made, and it is worth considering, that an indictment for criminal conspiracy would lie against an entire Tong or society whose members were known or believed to be guilty of murder. So far as we can know anything about the secret workings of these organizations there is ample reason to believe that the murders are committed after full discussion and the murderer selected by his society and instructed as to how and when he shall do his deadly work. If this be true there is certainly a criminal conspiracy preceding every one of these highbinder murders, and the whole society is liable to indictment.

Such a wholesale attack upon these secret societies would do much to break them up. As it is now they care very little if one of their number happens to fall into the clutches of the law. They have plenty of assassins left, and one more or less makes no difference to the Tong. If, however, the whole Tong were indicted the Chinese would believe that the officers of the law were in earnest and it would work a change in their system of getting rid of those who were inimical to them.

USES OF BAKING-SODA.

For bathing—Add a little to the water.

Soon for insect stings—Moisten a pinch of soda with water, and apply to the wound.

For sore throat—Hold a small quantity in the mouth or rub a little with water, and gargle frequently with it.

To remove sunburn—Mix one teaspoonful of soda to one-half glass of vinegar, and apply with cloth to face and hands just before retiring.

For cuts and barb-wire fence wounds—Mix one dessertspoonful of soda to one cup of boiling water and apply with a soft rag as hot as it can be endured.

For pimples, fever-blisters, burns, poison from ivy—Mix one teaspoonful of soda with one-half glass of water, and apply with a soft cloth.—Ladies' Home Journal.

HE WORK OF GENIUS.

A NUREMBURG watch in the form of an acorn has a tiny pistol which serves as an alarm.

LATE developments in electro photography indicate that it may be possible to take photographs of views located many miles from the camera.

SOMETHING that will prove useful for hotel keepers has been invented by a California physician. It is a contrivance which automatically closes a gas-burner when the gas is blown out.

A UNIQUE and instructive toy is a doll which writes the alphabet on a slate, and in any order desired. It therefore spells words and writes sentences. The inventor is a mechanician in Nuremberg, Bavaria.

World's Columbian Exposition.

Arrangements have been made by the North West Government with Mr. Angus McKay, manager of the Experimental Farm Indian Head, Assiniboia, who has been commissioned by the Dominion Government to act in that behalf, by which all persons and societies in the Territories who are willing to aid in contributing to the North West Exhibit at Chicago can do so by forwarding their products to him at Indian Head.

At or arrival at Indian Head, the exhibits will be rearranged according to the requirements of the North West Fair Commissioner, and forwarded to Chicago, where they will be taken in charge by the Canadian Commissioners.

All exhibits will be insured by Government and returned after the Exposition close to the exhibitors free of cost. Freight on all exhibits will be paid by Government.

Intending exhibitors may obtain all necessary information connected with the forwarding of exhibits by corresponding with the Executive Committee, Government Offices, Regina.

Exhibits are solicited of grains, Roots, Grasses, Dairy Products, Minerals, Coal and Wood, Furs, Building Stone, Stuffed Birds, Animals, etc., Fish, Insects, Natural and Indian Curiosities, Photographs, etc., etc., whatever in fact will illustrate the resources or history of the country.

Residents of the country are earnestly requested to assist by every means in their power in making the North West Exhibit a success by co-operating, where they can, personally and in such other ways as may occur to them.

With the exception of Dairy Products, Exhibits from Cow should be forwarded as soon as possible and a full description should accompany each article exhibited. Address —The Executive Committee, Regina, Assa."

By order,

R. B. GORDON,

Clerk of the Executive Committee.

Fish bought a large consignment of Clothing at 50c. on the dollar, and gives the public the benefit.

Go to Stewarts for genie all wool Suits at $1,35.

Messrs. McKenzie, of the Massey-Harris Co., and A. Thompson, of the Duck Lake House, Duck Lake, are in town on a business trip. They report business good in that interesting burgh.

Big drives in Crockery and Glassware at J. O. Davis.'

Fish has secured one of the largest consignments of Clothing at half price from one of the best houses in Canada. Call and get prices and he will explain you how he secured.

Stewart commences his special Discount on the 1st December.

Mr. Mills, tax collector, has been very successful this year in his collections, and claims that fully nine tenths of the ratepayers have taken advantage of the ten per cent. rebate and paid their taxes in time to save it. This speaks well for the town.

Buy your fur caps, and coats from F. C. Baker.

250 Mens', Youths' and Boy's suits at cost at J. O. Davis.'

SCHOOL ENTERTAINMENT.

A most enjoyable entertainment on Friday night marked the closing of the Island Lake district. Mr. McCullough and his pupils certainly deserve great credit for the pains taken to provide so pleasant an evening for the ratepayers and friends of the school. Promptly at 8 o'clock Mr. Bote, M.L.A., as chairman opened the entertainment in a practical address on the advantages of schools generally, and the importance of parents interesting themselves in assisting the teacher in his work. After several Readings, Dialogues, and recitations, interspersed with some excellent music, Mr. Bote in the absence of Rev. Mr. Cooke presented several valuable prizes for merit to different pupils, taking the opportunity of impressing on both teacher and pupils the importance of a thorough knowledge of Canadian History, and promising a prize for proficency in this branch for the next term. Rev. Mr. Cooke Dr. and Mrs. White arrived in time to add to the interest of the second part of the programme. Just before the closing chorus, Mr McCullough was invited to the platform, and on behalf of pupils and friends Miss Shipman read an address and presented him with a valuable writing desk of beautiful design. Mr McCullough was taken completely by surprise, but in a few well chosen words thanked the donors not only for the valuable present but for the kindness which had always been shown him by the people and pupils of the district. The singing of "God Save the Queen" terminated the entertainment, everyone in the crowded room expressing themselves as delighted with the entertainment.

NEW COOK BOOK FREE.

The Price Baking Powder Co., Chicago, has just published its new cook book, called "Table and Kitchen," compiled with great care. Besides containing 500 receipts for all kinds of pastry and home cookery, there are valuable hints for the table and kitchen, showing how to set the table, how to enter the dining room, etc., a hundred and one hints in every branch of the culinary art. Cookery of the very finest and richest as well as that of the most economical and home like is provided for.

"Table and Kitchen" will be sent postage prepaid to any lady sending her address, (name, town and state) plainly given. Postal card is as good as a letter Address Price Baking Powder Co., 1st 146 and 148 Michigan Street, Chicago, Ill

(Mention if desired in German.)

A DANGEROUS COLD.

DEAR SIRS—My little girl last winter had a very bad cold which almost resulted in congestion of the lungs. After doctoring with her for three months without success I tried Hagyard's Pectoral Balsam, and two bottles of it cured her. She is now strong and healthy.

"August Flower"

Mrs. Sarah M. Black of Semen, Mo., during the past two years has been affected with Neuralgia of the Head, Stomach and Womb, and writes: "My food did not seem to strengthen me at all and my appetite was very variable. My face was yellow, my head dull, and I had such pains in my left side. In the morning when I got up I would have a flow of mucus in the mouth, and a bad, bitter taste. Sometimes my breath became short, and I had such queer, tumbling, palpitating sensations around the heart. I ached all day under the shoulder blades, in the left side, and down the back of my limbs. It seemed to be worse in the wet, cold weather of Winter and Spring; and whenever the spells came on, my feet and hands would turn cold, and I could get no sleep at all. I tried everywhere, and got no relief before using August Flower Then the change came. It has done me a wonderful deal of good during the time I have taken it and is working a complete cure." G. G. GREEN, Sole Manf'r Woodbury, N. J.

6 M H LF-YEARLY COMPETITION

The most Interesting Contest ever offered by The Canadian Agriculturist.

One Thousand Dollars a Cash, a Pair of Handsome Shetland Ponies, Carriage and Harness, will be given away next year to Canada other valuable prizes for The Agriculturist's brightest readers. Who will have them? According to the success of our recent Competition, and the good results that followed, we have decided to offer the Sixth Half-yearly Interest Competition. The good news published so far, is but the most superficial view of the benefits conferred by the paper of the Dominion and Canada.

One Thousand Dollars a cash will be paid to the person sending in the largest list of English words constructed from letters in the word "THE CANADIAN AGRICULTURIST."

Five Hundred Dollars in cash will be given to the second largest list.

A Handsome Pair of Shetland Ponies, Carriage and Harness, will be given for the 3rd largest list.

Over one thousand additional prizes awarded in order of merit. One Gerold Piano, $300 Organ; $60 Piano; Dinner Sets; Ladies Gold Watches, Gold Dress Patterns; Parlour Curtains; Silver Tea Services, Teaspoons of Forks, Should be cloth, Dictionary, Bibles, Revolvers, Rifles, &c.

As there are more than 100 prizes, any one who tries the trouble to prepare an average good list will be sure to receive a valuable prize. This is the biggest thing in the competition line that we have ever placed before the public, and we do not take part of the money as the recipient of a big list.

RULES.—1. A large reward is used other that is appears in the words "The Canadian Agriculturist." For instance the word "cat" could not be used, as there is but one "c" in the three words. 2. Words of more than one meaning but not be used but

Each list must contain one dollar to pay for six months subscription to THE AGRICULTURIST (if two or more lists, the largest list which bears the correct postmark will take the first prize, and the others will receive prizes in order of merit. United States money and stamps taken at par.

The object in offering these magnificent prizes is to distribute the popular Dominion home over homes, in every part of the American continent.

Every competitor enclosing 25 cents in stamps will receive, by return mail, a sample copy of the AGRICULTURIST with this and successful specimen of Canada.

Prizes awarded to persons residing in the United States will be shipped from our New York office free of duty. All money letters should be registered.

Q. & A. PRIZES COMPETITORS. We have given away not less in prizes during the last two years, and have thousands of letters from prizewinners in every part of the union and every part of Canada and Newfoundland. Lord Lansdowne, K.C.C. to the Governor General of Canada, writes: "I shall recommend my friends to enter your competitions." H. M. Dundas, Vancouver, B. C., received $1000 in gold and he said his was got for nothing. A few of the prize winners: Miss J. Reid, ont., T. monie, $1500; J. J. Brandon, Pennies Falls, Ont., $1500; David Harrison, Syracuse, N. Y., $500; H. Bowie, St. Louis Mo., $300; Jos. Baptie, West Duluth, Minn., $500; Miss Georgina Robertson, Oak St., Dundas, Ont., $1000; Fred. H. Ellis, 250 State St., Bridgeport, Conn., had thousands of others

RHEUMATISM NERVOUS DISEASES CAN BE CURED

Etc. Etc.

ELECTRICITY, AS APPLIED BY THE OWEN ELECTRIC BELT AND APPLIANCES,

Is now recognized as the greatest boon offered to suffering humanity. It is fast taking the place of drugs in all nervous and rheumatic troubles, and with good cause in seemingly impossible cases where every other known means has failed. It is Nature's remedy, and by its simple, soothing current that is readily felt, POSITIVELY CURES Nervous Prostration, Rheumatism, Sciatica, Kidney Diseases, Varicocele, Lumbago, Lame Back and Dyspepsia.

RHEUMATISM

"For twenty years I have been a martyr to rheumatism, suffering at times the most excruciating pains, from which I could get no relief, for doctors and medicine had no effect on me, and it was only when I got the Owen Electric Belt that I began to get well. I am thoroughly cured, and have been so for months. The Belt's action was most marvellous, removing the pain in a few days."—H. SUMMERS, 92 Wheatley street, Toronto.

NERVOUS DISEASES

Thousands of people suffer from a variety of nervous diseases such as Seminal Weakness, Impotency, Lost Manhood, etc., [illegible] the old method of treating as a failure. There is a [illegible] of nerve force or power that cannot be restored by any medical treatment, and any doctor who would try to accomplish this by any kind of drugs is practising a dangerous fraud on [illegible]. Electricity as applied by the Owen Electric Belt and Suspensory is the only rational agent that will supply what is lacking, stimulate nerve force or power, impart tone and vigor to the organs, and arouse to healthy action the whole nervous system.

KIDNEY DISEASE

"Your Belt has done wonders for me. It stopped the bleeding of my kidneys which were so bad that the doctors failed to help me. I am satisfied it saved my life, and I am a wonder to everybody who knew how bad I was."—W. PATERSON, Riverside, Ont.

LUMBAGO AND LAME BACK

"On the advice of my doctor, after everything else failed, I got an Owen Electric Belt for a severe attack of lumbago and weak back. At that time I was so bad I could not stand up without assistance, so intense the pain. After wearing the belt for a short time the pains are all gone and I am as well as ever. I know if you the Belt cured me, and I would not be without it for $100."—W. J. LEWIS, conductor C.P.R., Owen Sound, Ont.

DYSPEPSIA

"For over four years I have been a sufferer from indigestion, catarrh and nervous prostration, and spent hundreds of dollars on doctors and drugs without any benefit. I purchased the Owen Electric Belt about four months ago, and have worn it since with the most beneficial results, for I am perfectly well and free from every trouble."—A. MCDOUGALL, Melville, Ont.

WE CHALLENGE THE WORLD

To show an electric belt where the current is under the control of the patient as completely as this. We can use the same belt on an infant that we would on a giant by simply reducing the current. Other belts have been in the market for five or ten years longer, but to-day there are more Owen Belts manufactured and sold than all other makes combined.

BEWARE OF IMITATIONS AND CHEAP BELTS

Our Trade Mark is the portrait of Dr. A. Owen embossed in gold upon every Belt and Appliance manufactured by the Owen Electric Belt and Appliance Co. None genuine without it.
